Slavery in Kentucky.

[For the Union Press.] Since my arrival in Kentucky, I have been requested by friends to give my The largest and best stock in the city. MESS CHESTS opinion respecting the institution of slavery made to order. PRESENTATION SWORDS furnished in this State, and the prospect of its maintenance within our borders. I do not see how any one can hope to perpetuate slavery with freedom all around us. If the Federal arms are eventually triumphant and the Union maintained, as I do not doubt they will be, the principles of the emancipation proclamation will be the controlling element in the reconstruction of the Union; for our value, and, of course, in doing this he will have regard to his own knowledge of the have regard to his own knowledge of the Government will never consent to a restoration of peace with slavery remaining in any of the revolted States; and it ought not to do so, inasmuch as that was the chief cause of the war, and a source of perpetual disturbance between the North and South. If, on the other hand, the Confederacy This Department embraces all States, North and South, which lie west of the Allegheny Mountains, including the following Military Departments:
Department of the Northwest; Northern Department, Department of Missouri, Kansas, and those composing the Military Division of the Missisppi.

Town, U. S. A. Offices—708 Jefferson street, between Seventh and Eighth, Louisville, Ky. should maintain its independence, and Kentucky should remain either with the North or the South, there would not in any event be any guarantee either by treaty or otherwise for the protection of slavery. The truth is the sentiment of the civilized world, is against slavery; and the best evidence we have of the fact is that after more than three years hard fighting, in which the South has exhibited a degree of fortitude and heroism unparalleled in the history of the world, not a single nation has come

forward to recognize its independence. If slavery had not been a part of her social system, no one can doubt that foreign insystem, no one can doubt that foreign in-tervention would long since have taken place. As it is, they are left entirely to their ewn resources; and from all the indi-cations we have of the intentions of foreign powers, there is no reasonable ground to believe they will ever receive assistance, or even recognition until they have publicly announced to the world that they have abandoned slavery.
Mr. Clay, who, more than any other man,

reflected honor upon his adopted State, pro-posed a system of gradual emancipation in 1849, which, if it had been adopted, would 1849, which, if it had been adopted, would have placed Kentucky in an enviable position. It was rejected, however, and we now see the folly of failing to heed the counsels of that great and good man. The proposition of Mr. Lincoln offering compensation to slaveholders, upon the adoption of a system of emancipation in Kentucky, was also, in my humble opinion, unwisely rejected. There are many controlling reasons why the people ought to endeavor to get rid of slavery, among which are the following:

1. Free labor has ever shown itself to be

cheaper and more profitable than slave 2. Educated is superior to that of uneducated labor, just in the proportion that in-telligence is able to accomplish more than

4. Disabled or superanuated slave labor becomes a direct charge upon the master or employer; free labor of that description only partially so under any circumstances.

5. Slavery is an obstacle to the progress of the white man, and every one who loves his own better than the black race ought to desire its removal. One mile west of the city. In charge of Surgeon H. P. Stearns, United States Volunteers.

The re-election of Mr. Lincoln by an overwhelming majority, was an emphatic endorsement of his policy by the people; and it is vain to imagine that the sentiment in regard to shave recovering the sentiment in regard to slavery, enunciated so frequently and in such unmistakable terms by the Chief Magistrate, will ever be modified so with a view to have the rank and pay of long as the voice of those who placed him in power sustains and vindicates him in the

There are many good man and true patriots who opposed the election of Mr. Lincoln; but inasmuch as he is the chosen ruler of the nation for another Presidential term, does it not become all well-wishers of the country to give to the constituted authorities a warm and cordial support? It is evidently the true policy of Kentucky to wait no longer for an indication of what the destiny of slavery is sure to be, but to indestiny of slavery is sufe to be, but to in-stitute means at once for its removal. Let us act voluntarily and promptly in the mat-ter, and whatever credit history may award will be due to ourselves alone. OIL-DORADO,

TOUCHING OIL LEASES.—IMPORTANT DE-CISION.—From a late number of the "In-ternal Revenue Recorder," we copy the fol-lowing important decision in regard to oil

"The law makes the 'rent or rental value' the test which determines the amount of the stamp duty, and of course where the rent is fixed at a specified sum in money the stamp duty is easily determined.

"In the case of these oil leases there is,

however, very rarely a fixed rental value in money agreed upon. In some cases the lessee contracts to erect valuable machin-ery or sink shafts as well as to pay a cer-tain rate per gallon or barrel, for the oil produced, or deliver a certain portion of the oil instead of cash payments, and in others the rent is to be a certain portion of the oil or its value in money—the machinery, as in the first case, to become the property of the lessor at the end of the term.

"In such cases, the annual rent or rental value can only be determined by estimation. If the lease is of new and untried executed, the property duly cared for, and in fact is responsible to the Surgeon for the general administration of the institution. He takes charge of the dispensary, puts up the prescriptions, etc., as well as renders such assistance as may be necessary in dressing and minor surgery."

How the lease is of new and unitred lands, there is, of course, a possibility that it may turn out to be worthless, so far as the production of oil is concerned; but it would not be safe to assume that it would always, or perhaps ever be so. If the lessee has erected valuable machinery upon the premises, or made valuable improvements. premises, or made valuable improvements, which, upon the termination or surrender tention of Congress, and we hope, in view of the lease became the property of the lesse of the facts above stated, it will be favora-sor, it is evident that he has received a portion of the rent, or compensation for the use of the land agreed upon.

"The rental value cannot in such cases be stamp duty can no more be accurately calculated; and therefore, parties in such cases are advised to apply to the collector, under Section 162 of the act of June 30, to have the stamp duty determined, which, of course, involves the calculation, of the anapple of the collection of the anapple of the collection.

nual rental value. "If the land has been worked before the lease is made, or if the original lessee in such case underlets or assigns his lease, or portion, or undivided interest in it, th llector will, in such case, have some reliable data to start upon, but in all cases he should estimate, from the best information premises—the information derived from the parties and others, and the stipulations of the lease, and if the rent is payable in oil, the average market value of the oil is an element in the calculation, and in cases where he is in doubt, he will, of course, reeive such instructions as may be derived

rom this office.
"Such leases, whether of oil, coal or mineral lands, are held to be subject to stamp duty as leases, and a stamp as an agreement or contract, is, of course, insufficient. "There are thousands of farms in the country which are leased 'upon shares,' as

t is termed, and as it is, of course, impossible to determine at a given date what the farm will produce for the ensuing year, the iental value must be estimated, and the products, must become elements in the calculation, and yet no difficulty seems to have arisen in such cases. The calculation in the case of a coal or oil lease may be more complicated, but the principle is the same.

THE IMPORTANCE AND USES OF PETRO-LEUM.—To comprehend the importance of the discovery of petroleum to this country, as a business element, it must be known that, although the capacity of the existing wells meets all present demand, and its single State, there is no assignable limit to its flow, or to the localities which may be found to yield it. The bituminous coal areas of the United States, which are sup-posed to contain more or less petroleum. are estimated to cover upward of 62,000 square miles. It is thought probable that the soliferous strata of our Western country may be generally found to yield this valuable mineral product, and some suppose that Missouri will ultimately be ascer-tained to be among the States most abun-dantly supplied with it.

The importance of pretroleum is not limited to its value as an item of trade, or in its use as a means of cheap and safe illumination. Practical chemistry is constantmination. Practical chemistry is constantly adding to the number and variety of uses to which its ingredients can be employed in the arts. Some of its products are admirably suited to purposes of lubrication. Others are employed in producing new and beautiful dyes, and yet others have been used to some extent as flavoring material. Of the grosser ingredients, some are used in the valuable as fertilizers, some are used in the composition of water-proof cements, roofing, varnish, &c., and some have been found to subserve a desirable purpose as fuel. All in all it is very manifest that pefuel. All in all it is very manifest that petroleum is destined to exercise a decided influence upon the business of the country and the world, and whatever locality proves so fortunate as to be its possessor, will have an important element of mate-

rial prosperity.

It forefold that unless this was done, gold and silver would disappear from circulation, and the paper currency would surely depreciate exactly in proportion to the surplus amount of paper issues kept afloat. We have received the first number of this new religious weekly, published at Danville in this State. We find it to agree with its title; it being a regular old-fashioned religious newspaper. The "Presbyterian" is firm but conciliatory in the tone of its editorials, judicious and tasteful in the matter of its selections, and genuine true-blue in the cast of its theology. We speak positively as to the latter characteristic, as we consider ourselves a first-rate judge of the article. The paper should find a large and generous welcome in the families of our Presbyterian friends, and we hope they will do what they can to extend its influence and increase its circulation. A Good Petition.

The following petition to Congress is circulating in New York and Boston, and has already received the signatures of many of the best and foremost men of those cities. We deem it an excellent and timely request. The demand is an eminently just one. As a people or a nation there is no danger or chance of our doing too much for the soldiers who have rescued us from social chaos and unimaginable evils. We trust this petition will reach Congress with a formidable roll of eminent names atdorsed by that body:

To the Senate and House of Representatives in Congress Assembled: The undersigned, citizens of the United States, residing in the city of New York,

respectfully represent and urge upon the immediate consideration of Congress, that, At this time there are large numbers of patriotic young men discharged honorably from the Army and Navy, who have suf-fered by wounds, sickness, and imprison-ment during the present war. They respect-fully urge that honorable service during the present war, be made the surest road to pre-ferment in the civil service of the United States, and that the enactment of a law to that effect would alleviate greatly the mis-fortunes of soldiers and sailors, and also would tend to incite enlistments in the Army and Navy

We hold to this, as if haply it may, a rising and righteous to an indestructible and sacred principle in indignation. We hope these rumors are well founded. But we distrust them neverthat those who solicit such contributions are theless. And true or false, the treatment necessarily doing a good act. It is desirable, of immigration ever since the war began not only to rescue present sufferers, but to to advance upon rebel territory. During forestall future suffering of the same kind-

All the objections we have seen to retaliatory measures which did not obviously proceed from rebel sympathy, are based upon the altogether gratuitous assumption that such measures necessarily include a cruelty commensurate with that which they true, loyal and excellent people of our city are intended to prevent. And that they are also animated with the unchristian sentifirst to these drooping and ragged sufferers, ment of revenge. Neither of these points appear to us valid. We certainly should object to a deliberate course of starvation and freezing applied to rebel prisoners as developed itself. In that silent way an offset for the like treatment applied to our poor fellows. But the means are in our WE HAVE ON HAND A LARGE STOCK OF ALL hands for inflicting hardships and humiliations that will have no element of malignity in them, or of peril to life and health, and which will be more promptly and keenly felt at Richmond than any cruelty our people or authorities could be induced to inflict or sanction upon the rank and file of the rebel army, We have in short between two and three thousand rebel officers. Twenty-one of these are Generals.

Suppose we put these latter to hard labor with a colored guard to see that they do their appointed tasks. Almost any measure that would cut the pride of these officers or subject them to serious annoyance of any kind would be speedily recognized at and business-like management in its affairs, Richmond 22 an evil to be remedied. The point we are taliation is impertinent until the experiment

The retaliation for gross offenses against the usages of civilized warfare, which has been applied on several occasions in the course of the war has been uniformly successful. And yet there has always been somebody at hand to make the uncomfortable prediction that all such efforts

would but make matters worse. Our enemies are a good deal possessed with the Devil but not with idiocy. They are capable of drawing an inference and of appreciating the effect upon their cause which would be likely to flow from counter-retaliation provided the spirit on our part was resolute and unflinching. I subscribed as a Union man for the benefit of the Refugees thrown on our charity-as refugees from and exclusively for such, then the least the oppressions of rebeldom or forced upon that could be expected of the managers would be to return the loyal men their contributions the descriptions of rebellours of the war in defence of the matter contained in the original editions. Add to this the fact that we make our annual payments to the British into the hands of rebels or rebel sympathizers. In this matter I may be misinformed, and I hope I am, but I want to know the truth. I have not forgotten the fair for the benefit of the poor, held at the same place about a year ago. At that fair some of the tables were presided over by ladies in open sympathy with the rebellion, and I am informed that in these cases the money was never paid into the hands of the treasurer, but was administered directly by the hands of the fair rebels to the wants of their poor rebel friends.

wants of their poor rebel friends.

For one I have no particular objection to the rebels and rebel sympathizers getting up a fair for the benefit of their own friends, provided the funds are contributed by rebels or their friends, and the parties sail under their own colors; but, in the name of loyal men, I demand in this matter fair olay and honest dealing. MURDER,-A man by the name of Gottleib Wagner was murdered in Germantown about 12 o'clock Monday night by two brothers named Peter and Martin Belner. It seems that the two brothers had an old grudge against Wagner, and sought a difficulty with him. Wagner and a party of friends were playing cards Monday evening, when the two Belners came in, and one of them rubbed out the marks by which the game was kept. Wagner rapped him over the knuckles, when a general melee occurred, during which Wagner was fatally shot under the right shoulder. He was also bruised very much about the head and face. He lived about three or four minutes after receiving the shot. The brothers Belner were members of the 4th Ky., Cavalry, and lived formerly in Germantown. An inquest was held, and a discharged. verdict rendered in accordance with the above.

The Belner brothers have been arrested and will have a hearing before the Police Court this morning.

Wagner leaves a wife and three children.

A GOVERNMENT DETECTIVE MURDEREI BY GUERRILLAS,-About a week since Dr. J. S. Jeffries, a Government detective, went to Lexington from Cincinnaii, and thence into Bourbon county, for the purpose of "working up" an affair of some guerrillas who were supposed to have their headquarters at the house of a lady in that vicinity. Jeffries took with him a certain rebel de serter, whose knowledge of the country and of the men with whom he was to deal was to be brought to his aid in the affair. It seems, however, that, instead of succeed ing in his work, the unfortunate detective was betrayed into the hands of the guerril las, who murdered him, took from him his gold watch, diamond ring, and pin, revolver, &c., and left his body in the woods where it was found a few days after.

Released,-Five persons were released at the Provost Marshal's office yesterday, Their names and the conditions of their release are as follows: Jas. Edwards, Trimble county, deserter from Lyon's command, was released on oath of amnesty; David Webb, Oldham county, deserter from Jesse's band, oath and to go north of the Ohio; H. B. Perkins, Jefferson county, arrested for disloyalty, oath and bond of \$1,000; John A. and Allen P. Miller, Hardin county, deserters from Chenowith's regiment, oath and bond of \$5,000 each.

Missing .- John A. Finn, of Company B of the 183d Ohio Volunteer Infantry, left Cincinnati on the 20th of November for this city, and was missing when the boat arrived here. He was about five feet six inches high, had on soldier clothes and new boots, and had eight dollars in money and sixty cents' worth of postage stamps in his pockets. He is believed to have been drowned, and his wife, a poor woman living in Cincinnati, would be grateful for any information that would assure her of what his fate has been.

DISMISSED,-Colonel Ed. A. Starling, of the 35th Kentucky Volunteers, and Lieutenant Colonel E. Wier, of the same regiment, have been dishonorably discharged the service of the United States, from the date of mustering in, for violation of the mustering in regulations, in transferring men from company to campany, and thereby fraudulently swelling the ranks to secure an improper muster into the service of the United

Its destination, it is thought, is Savannah. All those who have failed to pay their city taxes for 1864 will find their names in the city papers of February 2d, or in a few days thereafter.

BENEFIT OF THE WIDOWS' AND ORPHANS' Home.-The entertainment to be given by the ladies and gentlemen at Masonic Temple, February 6th, 7th, and 8th, will consist of a variety of tableaux, still scenes, and acting ballads. Rebel Peace Commissioners en Route to Washington.

BALTIMORE, Jan. 31 .- It was correctly reported here last night, and is reported this morning, that peace commissioners are now on the way to Washington. According to the rumor, they are expected to arrive at Annapolis.

SECOND DISPATCH.
ANNAPOLIS, Jan. 31.—Col. Taylor, of the Second Maryland regiment, who arrived here this morning, says that on Sunday Alexander H.Stephens, R.M.T.Hunter, and others reached our lines, and requested to come within our lines at Fort Hill, but were refused, and were waiting permission from General Grant, who was absent at the time. I think the commissioners were admitted, nevertheless, and are now on their way to Washington.

PHILADELPHIA, Jan. 31.—A special d's-patch to the Evening Telegraph, dated Washington 31, states that it is known in best informed circles here, that a commission from Jeft. Up to noon to-day we have no official information of the rumor, though the assertion has been varied this morning by an equally positive announcement that commissioners, consisting of the rebel Vice President and Senators Hunter and Camp-bell, had arrived at City Point, and were expected to reach Annapolis to-day. They are not spoken of as commissioners repre-senting the rebel Government, but as citizens representing the people, on their way to Washington to confer with the President on the subject of peace, precisely in the same capacity that Blair visited Richmond.

SENATE.

Mr. Wade—I notice that the Secretary of War, in replying to the communication of the Senate about the employment of Generals, has made a mistake, which I wish to correct.
